

eFleetSuite Tablet Update Instructions

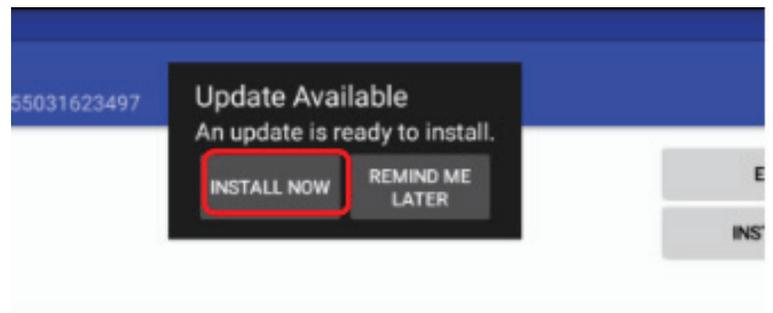

- 1 Power the tablet on and from this screen click the back arrow button (located at the bottom of the screen) to get to the ELD Data Service screen.

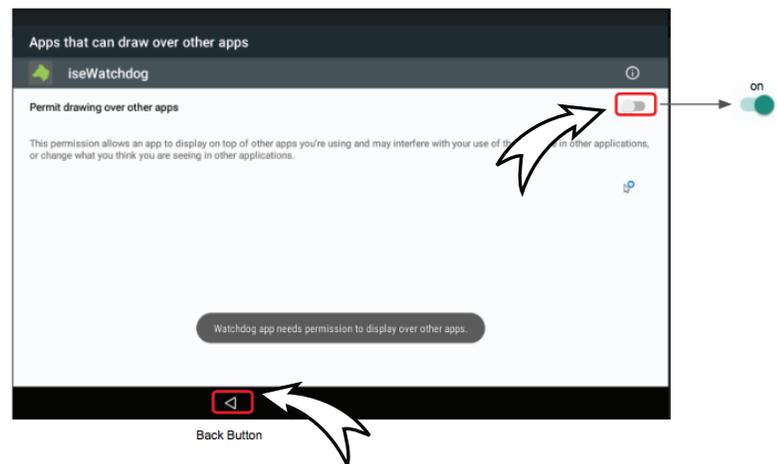

- 2 Touch the three dots in the upper right corner and select "Check for Updates". Checking for updates can take up to 5 minutes before the "Update Available" window prompts.

- 3 If an update is available, the "Update Available" window will prompt. Select "INSTALL NOW" to begin. Several updates will take place. You must select "INSTALL" and "DONE" on each Install Dialog to successfully update. Once the ELD Data Service software update is complete, the application restarts and ALL the new software versions are made available.

- 4 When your tablet restarts, you may see the iseWatchdog "Permit drawing over other apps" screen. You must enable the permit. Tap the on/off button and it will change to green to indicate it's enabled. Tap the back button to return to eFleetSuite.
